

Premium Ice Melt

TruMelt DEFENDER

Safer for

Pets

Vegetation

Concrete

PERFORMANCE

TruMelt Defender PLUS is a premium ice melter designed to protect the environment, concrete, and your pets. TruMelt Defender PLUS uses a high purity salt enhanced with liquid magnesium chloride, enabling the salt to begin the melting process. With an even coating of magnesium on the salt crystals, TruMelt Defender PLUS can penetrate ice effectively, rapidly creating a brine and melting ice to a temperature of 0°F.

ENVIRONMENTALLY FRIENDLY

TruMelt Defender PLUS uses a solar salt produced from ocean water and magnesium derived from natural bodies of water. By using natural ingredients, TruMelt Defender PLUS reduces the amount of synthetic chemicals that pollute water sources. TruMelt Defender PLUS is safe for pets and plants and will not burn paws or vegetation when used as directed.
